## TECHNICAL SUMMARY

Aspiring Full Stack Developer eager to apply technical expertise and creative problem-solving to deliver innovative web solutions and grow within a tech-driven environment.

## TECHNICAL SKILLS

- **Programming Languages:**
  - Python (scripting, debugging, validation techniques)
  - Java (OOP principles, core concepts)
- **Web Technologies:**
  - HTML5, CSS3, JavaScript (form validation, client-side debugging)
- **Databases:**
  - MySQL (query writing and optimization)
  - MongoDB (NoSQL basics)
- **Version Control & IDEs:**
  - Git (version control, collaborative development)
  - VS Code (development environment)

## CERTIFICATIONS & COURSES

- Web Development Internship Certificate – Wipro (June 2024)
- Generative AI – Infosys springboard (March 2025)
- Data Structure & Fundamentals in Python - Infosys springboard (July 2024)

## EDUCATION

### Bachelor of Engineering (B.E) – Computer Science Engineering

Mahendra College of Engineering, Salem, Tamil Nadu. 2022 – 2026 (Pursuing)

## WORK EXPERIENCE

- Web Development Intern - Corizo | May 2024 – Jun 2024
  - Completed intensive training in HTML, CSS, and JavaScript followed by a live project.
  - Developed responsive, interactive web pages that improved usability by 70%.
  - Enhanced UI/UX with optimized layouts and semantic HTML for accessibility.
  - Collaborated in a team to meet client interface requirements.

## PROJECT EXPERIENCE

- **Techtreads E-commerce Website (Wipro Internship Project)**
  - Designed by HTML, CSS, JS and Bootstrap. Built a fully responsive e-commerce platform with product catalog, search, cart, and checkout.
- **Farmers & Consumers E-Commerce Platform (Hackathon project)**
  - Implemented backend error-handling and validation mechanisms to ensure data reliability.
- **MIHY - Connecting local service experts (My Start-up idea)**
  - MIHY is a mobile-first application connecting local service experts (plumbers, electricians, carpenters, grocery distributors) with customers in their area.
  - Developed using **HTML, CSS, JavaScript**, and integrated with **Firebase** for backend prototype
